## Value Added

In these tough economic times it is even more important to create jobs close to home. As a value added producer Longhouse Trading buys logs from small local woodlots and produces finished products which we sell throughout North America. We do everything from sawing the logs with our precision equipment, to profiling, drying and pre-staining. By having all this done locally we are creating sustainable jobs. Longhouse has 20 employees, many who have been with us for a number of years. We have also been able to hire 2 new people this year. By supporting small forestry operations like us you are supporting main street and not wall street.
